

Description

List of frequency bands per customer choice:

GSM800-900:850-960MHz

GSM1800:1805-1880MHz

GSM1900:1920-1990MHz

3G:2110MHz-2170MHz

GPS:1500-1600MHz

WIFI:2400-2500MHz

Output watt:80 Watt(15 watt/ band)

Range Radius:Up to 150meters (It depends on the signal strength in the given area)

Battery Working time: 3hours

Size(without antenna):56*45.5*26.5MM

Total System Weight: up to 30KG

Power supply voltage:230VAC/~110VAC, +12/24VDC (optional)

Power Adjustment:Multi level potentiometer

Control: Wireless Management Control

Cooling system:Active “smart” with integrated incoming air filter

Antennae type:External high gain Omni directional Antenna

Can be installed in the car, five bands, use pelican case, portable, inside battery. Designed for military use, high quality.
